The 300m European Cup Subcommittee shall be convened on the initiative of the chairman.
(By letter invitation of August 21st, 2022).

5. Other questions about the European Cup 300m

1. Short discussion about the 2022 events :

- Uppsala – SWE
- Aarhus - DEN
- ECH at Zagreb - CRO
- Final at Zagreb- CRO

a) For this 300m Lapua European Cup Final 2022, we have 11 participating nations:

AUT / CRO / DEN / EST / FRA / HUN / NOR / POL / SLO / SUI / SWE

	300m Rifle prone	300m Rifle 3 positions	300m standard rifle 3 positions
Men events	22	13	15
Women events	13	11	

For a total of 74 starts, last year we had 94 starts, so a drop of twenty starts. This year we had 36 withdrawals for various reasons on with nine nations (all shooters of FIN and GER).

b) Participation is stable compared to last year. But it shows that the COVID-19 crisis continues to impact participation. We did not find the figures for participation before the crisis.

We only made two laps of the 300m European Cup instead of three, following the organization of the European championships, not initially planned.

Total starts in 2022 = 300 – (in 2021 = 285 / in 2019 = 417 / in 2020: COVID-19).

2. Rules ISSF and 300m European Cup 2023 :

a) The chairman presents us a proposal of regulation ISSF for the 300 m. Indeed, to date, we do not have a regulation for the Mixed Team Event ISSF WCH CAIRO.

b) The regulations will be slightly amended and effective January 1, 2023

- o 3.3.3 : 150 € instead 140 €.
- o 3.4.1 : 10 lanes instead 12 lanes.

3. Yearly Planning 2023 :

The schedule for 2023 is almost finalized as it could be modified for the final.

In fact, we are planning the final 25m/300m in Zagreb from 9 to 15 October 2023 but around this period it is possible that the World Military Shooting Championship (CISM) will be scheduled.

4. Co-Operation agreement LAPUA – ESC 2023 :

However, LAPUA wants to continue to act as a sponsor for 300m.
