Conducting:

- During the competition proper consistency developed between the domestic and the international organization.
- The competition office, the jury, the judges, the press, representative of the ESC, and health insurance was constructed for 11 container.
- The audience was set for 2 mobile auditorium.
- The participants included the existing toilets have been set up 2 mobile toilets.
- During the competition, participants were kept informed.
- To ensure the success of the competition more than 60 people work was needed for the entire duration of the event
- During the competition was not a technical problem, the equipment and the electrical system worked flawlessly.
- In 11 days, more than 1,000 people visited the Range. The operation of the information desk Táncsics High School's students, and colleagues of Blokk Media Company carried out.
- During this time, no crime, no offense. The doctor on duty according to the event, it was only a few unwell.
- During the event, the international and domestic anti-doping staff constantly checked the competitors.
- Based on the investigations of the tournament, no one used illicit drugs.

Obstacles, problems and solutions:

Was requested by the International Association the competition the to be broadcast online. It is successfully solved. So this clay target shooting competition was first, what looked anyone live anywhere in the world.

During the competition there are two independent Internet operating system worked (online mediation, and wi-fi).

Due to the great effort (was a time when more than 400 people used the download traffic has exceeded the daily was 300GB) the free wi-fi service is broken once, the problem rectified within an hour.
